

Cover Letter

I am writing to express my interest in the Internship position that is being offered by your company and would like to work in your company to learn and gain more experience as a Developer and Finance Enthusiast.

I am currently a year 3 student pursuing a degree in Information Systems in Singapore Management University and will be graduating in December 2023. I am currently looking for a full-time internship opportunity for the Summer of 2023 to build up myself as an individual and possibly seek full-time employment upon graduation with the firm I am interning with.

I have knowledge in Information Technology such as Python, PHP, JS Frameworks, SQL, Cloud Technologies and NoSQL. Aside from my technical skills, I also have knowledge in UI/UX along with Business Processes Reengineering and a Finance background. I have also been volunteering in community services that involve youth at risk to guide them and help them in their growth as an individual as I believe in helping the younger generation realize their dreams. I hope to be able to make significant contributions to your company as well as learn and gain as much experience from my time in your company.

I will be glad if an opportunity for an interview can be arranged at your convenience. I can be contacted at 9720 6457 or through email jackytjq@outlook.com.

Thank you for your time and kind considerations.

Yours Sincerely,

Jacky Teo
